

I support XM Satellite Radio because everywhere I'm driving I allways get wood quality signal plus if I am planning a trip to LA I can get traffic conditions while I am driving from Arizona. I am paying for these service, it's not fare that NAB's petition 04-160 violate my rights of listening the radio stations I want and the ones I want to pay.

I ask myself What's gonna be next, satellite tv? People please LET US LISTEN THE RADIO STATIONS WE WANT, IF WE DECIDE TO PAY FOR A XM SATELITE RADIO SYSTEM IT'S BECAUSE WE ARE LOOKING FOR BETTER AND MORE INFORMATTIVE RADIO STATIONS.

FCC PLEASE REJECT NAB'S PETITION 04-160.

Thanks
